

Safety Zone Water Softeners & Conditioners

COMBO-1-150 Water Filtration & Softening System

Key Benefit

Removes harmful contaminants: Filters out chlorine, chloramines, heavy metals, bad taste, and odors.

Protects skin and hair: Reduces dryness and irritation caused by hard water.

Extends appliance lifespan: Prevents scale build-up in pipes, water heaters, and washing machines.

Clean water from every tap: Enjoy purified, softened water throughout the entire house.

Compact combo system: Integrated filtration and softening in one space-saving unit.

Save Money With Fewer Plumbing Repairs!

Best Value

With our extensive experience, you can rest assured our systems will provide top quality performance, greater efficiency and offer the best value, considering price and performance!

Single tank combo system.
Our all-in-one "space saver" model.

General Description

The COMBO-1-150 by Safety Zone is an all-in-one home water treatment solution.

It combines a whole-house water filter with a water softener, removing harmful chemicals like chlorine, bad tastes and odors, and water hardness. This system ensures cleaner, healthier, and softer water for the whole family while protecting appliances and plumbing.
